

THE
ANTHRONATIONAL
FILM FESTIVAL
HOSTED BY
TAEBYN

Taking place at AnrthoNorthwest on January 3, 2025.

What is this Film Festival thing all about? I'm glad you asked!

The Anthronational Film Festival features films from the furry community that are anthropomorphic in nature and suitable for viewing by all members of our family-oriented audience.

We want to feature and promote those creative furs that inspire, energize, and entertain others. Past award winners were selected for a broad array of reasons. Some films are emotionally beautiful or moving; others are wonderfully comedic, or just make us really feel good. Still others are thought-provoking (in a constructive and furry way), demonstrate exceptional talent or creativity, or showcase one of the many amazing aspects of the furry fandom.
